

TERMINATION

*Your chance to be the fastest wirer in the West.
Pinboards and solder joints do look professional but think of the time it takes.
Think too, of crouching in corners with a hot iron. Next time think about Solid State's 32-way Krone block. Simply lay the wires on the Krone terminal and punch them in.*

"Rather than
blind you with science,
we'll just help you build
brilliant
organs."

Reliability

Krone connectors have been in use in the telecom industry for decades so you know it is a well proven product. Wires may be inserted and removed up to 100 times without damage.

Features

Speeds up wiring by up to 20 times compared to soldering
Proven in corrosive and salt-laden air
Rugged and vibration proof
Temporary wiring in your shop for testing
Extremely cost effective
Good for Cat5 data
